

EPPC Kosovo, on behalf of its client, an international software company placed in Kosovo, which builds solutions for law firms, corporate legal departments, and professional services firms, is seeking for a **'JavaScript Developer'**.

Major responsibilities:

- Develop new user-facing features;
- Build reusable code and libraries for future use;
- Ensure the technical feasibility of UI/UX designs;
- Optimize applications for maximum speed and scalability;
- Assure that all user input is validated before submitting to back-end services;
- Collaborate with other team members and stakeholders.

Requirements for this position are:

- Bachelor's degree in Computer Science;
- At least 2 years of experience;
- Strong understanding of JavaScript, its quirks, and workarounds;
- Good understanding of web markup, including HTML5 and CSS3;
- Good understanding of ReactJS, NodeJS etc.;
- Good understanding of asynchronous request handling, partial page updates, and AJAX;
- Proficient understanding of cross-browser compatibility issues and ways to work around such issues;
- Familiarity with JavaScript module loaders, such as Require.js and AMD;
- Familiarity with front-end build tools, such as Gulp.js;
- Proficient understanding of code versioning tools, such as Git / SVN;
- Good understanding of browser rendering behaviour and performance;
- Analytical skills to evaluate data and make operational decisions;
- Experience of other IT packages including PowerPoint, Excel and databases;
- Excellent written/verbal communication;
- Able to work flexible hours (afterwork) when needed;
- Positive attitude, self-confident and determined.
